● Themes ● Staff
● Board/Fellows ● Partners

We are celebrating 20 years of Samdhana by co-creating events with Partners and listening to voices from the young, women, IPLCs and CSOs in the region on their vision for the future.

Our objectives in this year's celebration are the following:

To explore what skills and knowledge we need to navigate together the next 20 years with Samdhana Partners, Fellows, Board and Staff;

To learn how to better act as a support organization and in particular how we can improve our strategies and approaches working with the different groups: indigenous peoples and local communities; women; youth; and differently abled communities;

To learn to listen better, be kinder with each other and be more innovative so we can build a learning community welcoming of the next generation activists and supportive of the social and environmental movement in the coming 20 years.
